ENNESIMO FILM FESTIVAL

26 Aprile

– 3 Maggio

2026

FIORANO MODENESE

We believe that environmental transformation comes, also and above all, from cultural transformation. Indeed, cinema is a communication tool capable of disseminating and supporting the importance of sustainable development. These themes take us back to Agenda 2030, to which we also dedicate a selection of our Festival. We bring them to the classes of the schools participating in Ennesimo Academy with the course The Shape of Water. With a view to integrated sustainability, we are convinced that it is fundamental to invite cultural transformation: the aims are the dissemination of models of responsible production and consumption, and the activation of conscious participation of citizens. Cinema, as an artistic and creative language, assumes a strategic role in educating the public to more conscious and responsible lifestyles and choices, disclosing the major themes of sustainability.

Ennesimo Film Festival 2026

We're committed in reducing printed materials and cutting down on waste. If you don't have a physical copy of the program, you can view it on our website or download the mobile version for easy access: ennesimofilmfestival.com/eff-2026-programme

Curious about environmental sustainability and eager to learn more? Ennesimo's program consistently features the Agenda 2030 Selection, offering insights into efforts aimed at achieving the United Nations' objectives. Screening at BLA on 1st May at 3 p.m.

Have you checked out our merch stand yet? Almost everything on display (with just a few leftovers from 2025) consists of one-of-a-kind pieces handcrafted from reclaimed materials: upcycled gadgets from our past editions! Come take a peek and help us give a second life to fabrics that would have otherwise gone to waste.

Digging your guest badge? It's another one-of-a-kind piece crafted from reclaimed materials! We'd love for you to keep it safe: if you join us again next year, bring it along and reuse it. Let's keep the cycle going together!

HOW TO BE A GREEN ENNESIMO'S AMBASSADORS

At screenings

Bring your water bottle or reusable cup! You'll find free water dispensers at the Festival venues!

Do you have waste but are not sure how to put it in the correct bin? DON'T IMPROVISE, ASK US! The Ennesimo team has followed a training course and even if not all of them are from Fiorano, we all know what the recycling regulations are in place in the city!

Did you know you can reach Fiorano town center using public transport? You can use both trains and buses. On our website ennesimofilmfestival.com/ennesimo-green-mobility/ you'll find continuously updated information!

Hospitality

The accommodation options or welcoming solutions we've arranged for you are based on the Festival's established relationships with our partners, ensuring optimized travel and convenience. We kindly ask you to consider these proposals and, if possible, avoid requesting alternative arrangements

We've already communicated your dietary needs to the restaurants and cafes where we'll be dining. You'll find that they use ceramic or compostable tableware... Please help us be green!

Do you have an electric car? Did you know there are charging stations near the Astoria Theater? And since you're coming by car, fill it up! You can use the Ennesimo Ambassador group if you have free seats to give someone a ride!

Thanks for Ennesimo!

It's official: Ennesimo 2026 is underway, and we are beyond thrilled to have you with us. Thank you for 'dropping everything' to join us in building new perspectives, from the seats of Teatro Astoria to the city streets.

The Festival is a beautiful, fast-moving machine—sometimes it moves a bit too fast—and I don't always get to spend as much time with our guests as they deserve.

If we only manage to catch each other for a quick hello, I would love to stay in touch and have a proper chat once the event is over.
